

27th September 2023

Dear Parent/Carer,

RE: Prove It Mathematically Club

Assalamu Alaikom

We hope this letter finds you in the best of health and Imaan.

Last year Dr Rod Benson ran Magical Maths club. This year he will be returning to run a very special club that is designed for pupils who show a talent for mathematics. The club will run for 5 weeks from **Tuesday the 31st October until Tuesday 28th November 2023.**

This club is for Year 5 and 6 pupils who are *naturally gifted and enjoy maths*, and is by *invitation only*. We believe that your child would enjoy and benefit from this club which is why I am forwarding this information to you.

Please use the following link that Dr Benson has provided to learn all about what this 5-week club entails and then if you would like to sign your child up, you can do so also using this link. If you have any questions or want further information from Rod, then please feel free to call him on **07825 819278**. Please note the club is limited to 15 students and also requires a minimum number of three participants to run.
